PROFESSIONAL SUMMARY

Junior developer with a background in IT and a passion for overcoming challenges to build applications that innovate and make a difference. With a year experience working on cross-functional teams to develop full-stack applications and an aptitude to learn quickly.

PROJECTS

- [Kansha Rewards](#)
React | Node | Express | AWS | Heroku
Most incentive programs allow managers to recognize employees. Kansha is different because it allows for peer to peer recognition.
[Front End](#) | [Back End](#)
- [DIY Tracker](#)
This project allows users to keep track of progress on DIY projects.
REACT | JAVA | SPRING
This app was engineered in one week with 4 people on the team. Solely responsible for developing a Java Spring REST API.
[GitHub](#)
- [Design Your Life](#)
This app was built with React JS and is based on Stanford's Design your life course.
REACT | NODE | EXPRESS
